# Our Journey and Future Direction

## Who We Are

- **Dhanpati Group Private Limited** is a formally established Private Limited company, founded with a clear mission to serve government institutions with integrity, reliability, and excellence. We are a professional organization dedicated to government procurement, supply operations, and institutional services serving government bodies across every state and union territory of India.

We are proud to share that Dhanpati Group Private Limited is a **Women-Led Private Limited Company**. This company is founded, owned, and managed by women who believe in hard work, honest dealings, and dedicated service to the nation. Our company is built on a foundation of discipline, compliance, and commitment. We have aligned ourselves with the highest standards of government procurement norms, GeM Portal operations, tender processes, and regulatory compliance because we understand that serving public institutions demands nothing less than absolute accountability.

- **We are proudly oriented toward government supply and procurement services.**

We are proudly oriented toward government supply and procurement services. Our operations are structured to meet the specific demands of government institutions timely delivery, proper documentation, full compliance, and transparent dealings at every step. We work within the framework of GeM Portal, government tenders, and institutional procurement processes with complete professionalism. Our goal is to become a trusted, long-term supply partner for government bodies not just across Maharashtra, but across every corner of India.

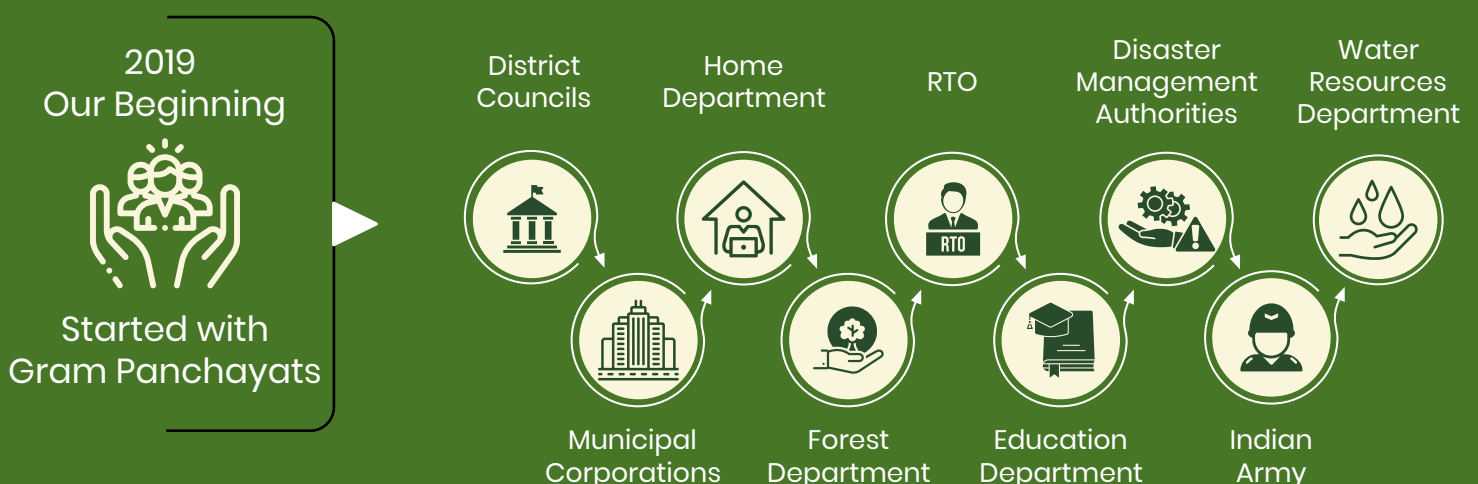

- **The Experience Behind Us**

While Dhanpati Group Private Limited carries a fresh and independent identity, the experience and expertise behind it run deep. Our founding team spent seven years working as partners within another firm, actively engaged in government procurement and supply operations, serving the Government of Maharashtra and its institutions. During those seven years, we contributed significantly handling tenders, managing government supply chains, operating on the GeM Portal, and ensuring full compliance with all procurement norms. We now bring all of that knowledge, experience, and expertise independently and completely into Dhanpati Group Private Limited. This is our own company, our own identity, and our own unwavering commitment to the government institutions we serve.

- **Our Promise**

Dhanpati Group Private Limited stands for transparency, accountability, and reliability. We are not just a supply company. We are a faithful, long-term partner that government institutions across India can truly depend on. We promise on-time delivery, every time. We promise honest and transparent dealings in every document, every order, and every transaction. We promise consistent quality in everything we supply, because the institutions we serve deserve nothing less. We promise full compliance with all government procurement norms and GeM Portal guidelines, without exception. Simply put what we commit, we deliver. Dhanpati Group Private Limited Committed to the Nation. Faithful to Every Promise.

# Health & Medical Education Department

## Consumable Products

Health Department We are happy to share that we also supply products needed by the Health Department. Over the years, we have worked closely with government health institutions and understand what they need on a daily basis. We provide all kinds of consumable items that are regularly used in hospitals and health centres, such as gloves, syringes, bandages, IV sets, masks, catheters, surgical tools, sterilization materials, and many more day-to-day medical supplies. Apart from consumables, we also supply equipment like oxygen concentrators, patient monitors, emergency kits, hospital beds, and medicine storage units. We make sure that everything we supply comes from trusted manufacturers and meets all government quality standards. Our focus is always on delivering the right product, at the right time, with complete transparency and proper documentation as required under GeM and tender processes.
